

From a 1-minute check on a phone to organized leads in your dashboard.

This is the full path an applicant takes — and what your team sees on the back end. Every applicant is screened against the 80% AMI income limits and **auto-sorted** into Qualified, Under-income, or Over-income, so AREA always knows who to call first.

YOU MAY BE A FIT

You may be a fit for Amana Lofts.

Based on your answers, your household may be within the income range for these homes. This is an estimate, not an approval — final eligibility is confirmed by the AREA leasing team.

For a household of 2, the 80% AMI income limit is generally up to **\$97,280** per year. Final limits vary by residence and are confirmed through income verification.

Instant result. Honest, not a promise — and the lead is already on its way to you.

Three outcomes — every applicant is sorted into one

The result the applicant sees is computed server-side from the 80% AMI limits, and the same tag travels with the lead into your dashboard.
